HOUSE BILL NO. 8582

AN ACT
ESTABLISHING INNOVATIVE PROGRAMS TO PROVIDE SAFE SCHOOL
ENVIRONMENTS

The Constitution, Article II, provides:

Section 13. The State recognizes the vital role of the youth in nation-building and shall promote and protect their physical, moral, spiritual and social well-being. It shall inculcate in the youth patriotism and nationalism, and encourage their involvement in public and civic affairs.

Section 17. The State shall give priority to education, science and technology, arts, culture and sports to foster patriotism and nationalism, accelerate social progress, and promote total human liberation and development.

Quality education is necessary not only for the future of our children and our families, but for the future of our country. A better educated citizenry and workforce are essential to compete in the global economy and to maintain a strong democracy.

A safe school environment is a prerequisite towards achieving that goal. If the government is to effectively provide quality education, it must provide students an environment conducive to learning. The continued presence in schools of violent students, who are a threat to both teachers and other students, is incompatible with a safe learning environment. Unsafe school environments discourage students to go to school and place those who are already at risk of school failure for other reasons in further jeopardy.

Greater cooperation between schools, parents, law enforcement, the courts, and the community is essential to making our schools safe from drugs and violence. The purpose of this bill is to establish innovative programs to provide safe school environments.
