

Republic of the Philippines
HOUSE OF REPRESENTATIVES
Quezon City

EIGHTEENTH CONGRESS
Second Regular Session

HOUSE BILL NO. 8794

Introduced by **HON. JOY MYRA S. TAMBUNTING**

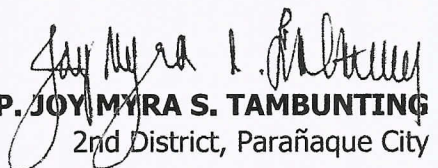

EXPLANATORY NOTE

Pandemics, epidemics and similar public health crises impact not only the health and well-being of the population but also a nation's economy and its capacity for delivery of basic services to the people. The COVID-19 pandemic is a testament how public health emergencies of this scale can largely impact the lives of the people and the nation.

During the earlier months of the COVID-19 pandemic, the country has had some issues with properly enforcing health protocols and travel restrictions as there was overwhelming confusion amongst the public. In this light, this measure seeks to prepare the public by providing them with adequate knowledge about public health emergencies through the integration of the discussion on pandemics, epidemics, and other public health emergencies to the curricula of primary and secondary education.

This measure provides for the development of an age and level-appropriate course on the effects of these health emergencies, achieving preparedness and adopting mitigation strategies, to be led by the Department of Education in coordination with the Department of Health, National Disaster Risk Reduction Management Council and other relevant institutions.

On behalf of the people of Parañaque City's Second District, and for the common good of the Filipino people, the approval of the said measure is earnestly sought. the
