HOUSE BILL NO. 1

**Introduced by Representatives FERDINAND MARTIN G. ROMUALDEZ,
YEDDA MARIE K. ROMUALDEZ, FERDINAND ALEXANDER A. MARCOS,
and JUDE A. ACIDRE**

EXPLANATORY NOTE

In a bid to contain the spread of the Coronavirus Disease 2019 ("COVID-19") across the country, the National Government was constrained to enforce a massive shutdown of economic activities, which adversely affected various critical industries, and triggered an economic downturn. Thus, there is a need for the State to enact measures aimed at supporting industries critical to economic recovery and maintaining employment levels.

The proposed legislative measure seeks to strengthen the capacity of the following Government Financial Institutions, namely: the Land Bank of the Philippines ("LBP") and the Development Bank of the Philippines ("DBP"), in order to provide the needed assistance to micro, small, and medium enterprises ("MSMEs"), and other strategically important companies.

To this end, the government financial institutions are mandated to expand their credit programs in order to assist affected MSMEs to meet their liquidity needs. In particular, LBP and DBP are mandated to expand their credit and rediscounting facilities to affected MSMEs in the agriculture, infrastructure, manufacturing and service industries.

In addition, the proposed bill authorizes LBP and DBP to create a special holding company which aims to further reinvigorate these strategically important companies heavily affected by the COVID-19 pandemic. Equity participation in this special holding company may be held by qualified private sector investors. However, to ensure that the policies and objectives under the proposed bill are effectively carried out, LBP and DBP are mandated to maintain at least a majority ownership over the special holding company until such time that they have recovered their investment.

The special holding company is intended to be a major player in the financial and capital markets by providing aid to strategically important companies with solvency/liquidity issues brought about by COVID-19 pandemic. For this purpose, the special holding company shall be authorized to invest or place funds in equity, execute convertible loans or purchase convertible bonds and/or other securities, in said strategically important companies, as well as to incorporate subsidiaries. Nevertheless, to ensure that such investments are properly utilized, as well as to ensure the successful rehabilitation of strategically important companies, the legislative measure imposes restrictions on the investee company by requiring

that the number of employees are not reduced beyond a certain level, limiting its ability to declare dividends, restricting the increase in salary, separation and retirement pay, and other benefits of the board and its senior officers, and ensuring that investments of LBP and DBP are not diluted and time-bound with a definite exit mechanism, among others.

In the 18th Congress, this bill was filed by Rep. Junie E. Cua, Chairperson of the Committee on Banks and Financial Intermediaries. It was approved on 3rd Reading and was transmitted to the Senate.

Considering the state of the economy and the urgent need to provide assistance to MSMEs and other strategically important companies, the approval of this measure is earnestly sought.
