**AN ACT
INSTITUTIONALIZING THE PUBLIC TRANSPORT ASSISTANCE PROGRAM
PROVIDING FOR THE PURPOSE FUEL SUBSIDY TO PUBLIC UTILITY VEHICLE
OPERATORS AND DRIVERS, AND APPROPRIATING FUNDS THEREFOR**

EXPLANATORY NOTE

This bill seeks to institutionalize the Public Transport Assistance Program (PTAP) also known as the “*Pantawid Pasada*” Fuel Program of the national government under Executive Order No. 32, Series of 2011.

The disruptions in the supply chain of crude oil, mainly brought about by the Russia-Ukraine conflict, triggered the steady rise in fuel prices globally. Accordingly, as a net oil importer, this pushed pump prices in the Philippines resulting in record-high figures. The spike in fuel cost has also set off socio-economic repercussions in the country, especially for the transport sector, which has yet to fully recover from the COVID-19 pandemic’s disruptions.

Side by side the pandemic’s effects, the rising fuel cost has vastly affected our public utility vehicles (PUVs). They can hardly cope with the increasing cost of living vis-a-vis their meager income from driving public transportation. Despite the provisional increase to the minimum fare of riding jeepneys, the cost of diesel has steadily increased thereby canceling out any kind of relief for our drivers.

In view of the foregoing, this bill seeks to institutionalize the Pantawid Pasada Fuel Program or the PTAP, which provides cash assistance to marginalized drivers of PUVs. The noble intention of the bill also shares the spirit of the TRAIN Law, which mandates that PUV drivers shall receive cash assistance from the national government out of the revenues generated from the collection of excise tax on fuel.

While some interest groups have advocated for the suspension of the collection of excise tax, we cannot enact a measure that will precariously impinge upon our current tax base. On the other hand, the PTAP has been proven effective as a safety net to cushion the adverse impact of oil price hikes. Hence, it is fitting to continue this program to help ease the burden of the transport sector without totally cutting-off a major revenue source of the national government.

Under the proposed measure, the cash subsidy shall be given to operators and drivers of road-based motor vehicles that provide conveyance to the general public such as buses, taxis, vans for hire, jeepneys, multicab, tricycles and motor taxis for a period of ten (10) years. Operators of public utility vehicles maintaining a fleet of more than five (5) units are excluded from availing cash subsidies under this Act.

In recognition of the salient role of the transport sector to the country's progress and development, the approval of this bill is earnestly sought.
