EXPLANATORY NOTE

The Local Government Code of 1991 provides that the barangay, as the basic political unit, serves as the primary planning and implementing unit of government policies, plans, programs, projects, and activities in the community and a forum wherein the collective views of the people may be expressed, crystallized and considered, and where disputes may be amicably settled. In fact, most of the national government's efforts requires intervention and support of the barangays as they are the closest form of government to the people.

The barangay is headed by a Punong Barangay with support from the Sangguniang Barangay, who, under the Local Government Code, are receiving compensation in a form of honorarium, and not a fixed salary within a compensation system that will provide just remuneration for the wide range of roles and responsibilities.

The barangay serves as the office of first resort of the people, may it be in terms of conflict resolution, medical and burial support, financial assistance, conflict resolution, disaster and risk management, and the like. Simply put, they are expected to address a number of issues apart from their regular duties and responsibilities as Barangay Officials, which are already burdensome to begin with.

This bill seeks to provide fixed salary for barangay officials and declare them as regular government employees in order for them to receive just compensation and

other benefits that other regular government employees are relishing. It is high time that our barangay officials be given what is due for them and recognize their vital role in carrying out government's services to the communities.

Henceforth, in view of the foregoing, approval of this bill is earnestly sought.
