

REPUBLIC OF THE PHILIPPINES
HOUSE OF REPRESENTATIVES
Quezon City

NINETEENTH CONGRESS
First Regular Session

House Bill No. 1244

Introduced by **Pangasinan Fifth District Representative**
HON. RAMON N. GUICO JR.

EXPLANATORY NOTE

Government assistance programs such as loans, grants, financial assistances, and donations among others are vital modes of spurring the growth and development of this country, its people, and economy. The people, being the lifeblood of these programs, through their invaluable contributions, whether through the taxes they pay or the various contributions they provide for this country, shall only be rightfully accorded a full accounting of how these contributions are administered.

There is also a question of ease of access to many government assistance programs due to the obscurity of information regarding the eligibility requirements, the formulas governing the distribution of funds, the types of assistance, the uses and restrictions on the use of assistance and the obligations and duties of recipients under the program. These gaps often lead to delays over the delivery of such assistances and the misuse of public funds to accommodate vested interests.

It is also of equal significance that records of these programs be indexed in a centralized database in order to expedite the auditing of government transactions insofar as it relates to the proper utilization of government funds.

As such, this Act shall require the Secretary of Budget and Management to establish and maintain an online program information system which is capable of identifying all existing government assistance programs and publish a yearly catalog containing the same.

In view of the foregoing, approval of this measure is earnestly sought.

Rep. Ramon N. Guico Jr.
