NINETEENTH CONGRESS
First Regular Session

HOUSE BILL NO. 1684

Introduced by REPRESENTATIVE AURELIO "DONG" D. GONZALES, JR.

AN ACT
INSTITUTIONALIZING A DIGITIZED EDUCATION SYSTEM IN PUBLIC SCHOOLS FROM
GRADES K TO 12 TO BE IMPLEMENTED BY THE DEPARTMENT OF EDUCATION AND
PROVIDING FUNDS THEREOF

EXPLANATORY NOTE

The Covid-19 pandemic destroyed lives, devastated world economies and effectively disrupted our educational system. But at the same time, it taught us to be creative in facing unfortunate events such as this magnitude. One of the major remedies to combat this pandemic is to maximize our use of high technology thru internet facilities.

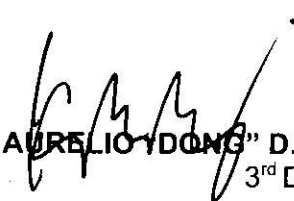

In improving our educational system now, there is a need to institutionalize a digitized educational system to public schools' K-12 program with the objective to at least be at par with world standards.

The intent of this House Bill is to digitize all educational materials, among others, and afford the needed computer equipment such as laptops to teachers, tablets to students, television sets in classrooms, sim cards and necessary internet connections. This system may be used during face to face classes, and likewise, through online classes if the situation calls for it, therefore ready for any eventuality. Such interruptions then, if not totally prevented, may at least be minimized.

The Constitution provides that education should have the biggest budgetary allocation, hence the cost of instituting digitized educational system is justified.

This is also a perceive solution to the adverse effects of Covid-19.

In view of the foregoing, the passage of this Bill is earnestly sought.

REP. AURELIO "DONG" D. GONZALES, JR.
