NINETEENTH CONGRESS
First Regular Session

HOUSE BILL NO. 1745

Introduced by REPRESENTATIVE LEODY "ODIE" F. TARRIELA

EXPLANATORY NOTE

The Municipality of San Jose is a first class municipality in the Province of Occidental Mindoro with a population of almost 150,000. Albeit not the provincial capital, San Jose serves as one of the major urban centers of Occidental Mindoro, housing the province's only commercial airport, and one of its two main seaports. In terms of healthcare, San Jose also serves as the main go-to place for residents of other municipalities in need of medical treatment.

At present, residents obtain their basic healthcare needs from the municipality's district hospital which lacks the necessary facilities and personnel to cater the growing population, especially those in need of critical care. Patients requiring advanced treatment are usually brought to private hospitals in Oriental Mindoro located some 5-6 hours away on the other side of the island.

The establishment of a Tertiary Hospital in the Municipality of San Jose will provide 150,000 residents access to tertiary healthcare services such as consultations with specialists in medicine, pediatrics, ob-gyne, and surgery. The hospital will also have emergency and outpatient services, isolation facilities, surgical and maternity facilities, departmental clinical services, general ICU, high risk pregnancy unit, NICO, dental clinic, Physical Medicine and Rehabilitation Unit, Ambulatory Surgical Clinic, and Dialysis Clinic. Ancillary services such as tertiary clinical lab with histopathology, blood bank and 3rd level X-ray will also be provided.

With this Bill, residents of San Jose and other nearby municipalities who are in need of basic, emergency, or maintenance healthcare will no longer have to travel for long hours to other municipalities/provinces to receive treatment.

In view of the foregoing, the passage of this proposed measure is earnestly sought.
