NINETEENTH CONGRESS
First Regular Session

2860
HOUSE BILL NO. _____

Introduced by: **REP. ALFREDO D. MARAÑON III**

EXPLANATORY NOTE

The attached bill seeks to establish the Negros Occidental Cancer Center.

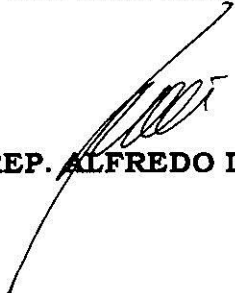

Section 15, Article II of the 1987 Constitution declares that "the State shall protect and promote the right to health of the people and instill health consciousness among them." Further, Section 11, Article XIII also provides that "the State shall adopt an integrated and comprehensive approach to health development which shall endeavor to make essential goods, health and other social services available to all the people at affordable cost. There shall be priority for the needs of the underprivileged, sick, elderly, disabled, women and children."

In the Philippines, 189 of every 100,000 Filipinos are affected by cancer, with four Filipinos dying of cancer every hour or 96 cancer patients every day. This is according to a study undertaken by the University of the Philippines' Institute of Human Genetics, National Institutes of Health. Apr 8, 2022.

Records show, there is an alarming number of residents in the province of Negros Occidental diagnosed of cancer. The current medical facilities in the province of Negros Occidental do not provide for specialized treatment of these illnesses, the nearest hospital facilities that can treat these illnesses are in Cebu City or Iloilo City. It is thus imperative that specialized medical services should be provided for those with cancer in the province of Negros Occidental and other neighboring provinces such as Negros Oriental, Guimaras and Panay Islands.

The establishment and maintenance of Negros Occidental Cancer Center will give true meaning to the constitutional policy of providing efficient and effective health care system that is responsive to the health needs and problems of the people.

In view of the foregoing, the approval of this bill is earnestly requested.

REP. ALFREDO D. MARAÑON III
