

**REPUBLIC OF THE PHILIPPINES
HOUSE OF REPRESENTATIVES
Quezon City, Manila**

**NINETEENTH CONGRESS
FIRST REGULAR SESSION**

House Bill No. 2919

Introduced by: **Rep. GREG G. GASATAYA**

EXPLANATORY NOTE

The ideal number of firefighters according to the ratio being practiced by the BFP is 1 fireman for every 2,000 population, which means that the BFP needs about 50,000 personnel, since as of this date, the country has an estimated 100 million population. However, at present, the BFP is composed of 18,769 firefighters only, which has a shortfall of 31,231 personnel. Therefore, our regular firefighting force all over the country is undermanned. There are 12 to 13 fire stations and fire sub-stations for every 1 million people in the country in 2010-2011. On the average, each fire station/sub-station in the Philippines responded to 9 fire incidents in 2010 and 7 fire incidents in 2011, or less than one fire incident per month according to the BFP. This unfortunate situation brings about initiative from volunteer fire brigades and civic organizations to provide valued reinforcement with selfless regard to their own safety; such volunteerism deserves to be honored and appreciated by the government.

It is with that intention that this bill seeks to provide financial assistance and benefits to volunteer firefighters of duly recognized fire brigades or civic organizations and members of barangay fire brigades trained by the Bureau who are at times injured and harmed in the line of their duties. It is also necessary to give hospitalization benefits to those who are seriously hurt and incapacitated. To further recognize their dedication and selfless service, the volunteer casualties shall be accorded burial honors similar to that of regular firefighters of the BFP.

As such, the approval of this Bill is earnestly sought.
