House Bill No. **3167**

Introduced by **HON. JOSEPHINE VERONIQUE “Jaye” R. LACSON - NOEL**

EXPLANATORY NOTE

The “Build Build Build” Program was introduced by President Rodrigo Duterte in 2016. Presidential Communications Secretary Martin Andanar stated that the program would be the pathway to the Philippine’s “Golden Age of Infrastructure.” Since then, the program introduced 75 flagship projects¹. The Plaridel Bypass Road in Bulacan, Laguna Lake Express Way, and a flood control project are among those that are already finished². The program has also led to the fast-tracking of infrastructure projects approved during the previous administrations³. The introduction of the said program shows the commitment of the current administration on infrastructural developments, more so, our economic advancements. However, there are encountered obstacles towards the realization of this dream.

Pursuant to Section 12 (b) of Republic Act No. 9514, otherwise known as the “Revised Fire Code of the Philippines of 2008”, both private and public buildings, facilities and structures are required to pay taxes and fees for the purchase of fire sprinklers as required by the building code.

I believe, in order to fully utilize the respective budgets of these government institutions, it is imperative that they should be exempted from the payment of the prescribed taxes and fees.

Thus, this bill seeks to promote the "Build, Build, Build" program of the government by exempting any government agency, bureau or instrumentality from the payment of taxes and fees imposed upon the purchase of fire sprinklers and taxes on the assessed value of the buildings for the construction of public buildings, facilities and structures by amending Section 13 of the Fire Code of the Philippines, thereby enabling the full and effective implementation of the Build, Build, Build program towards nation-building.

IN VIEW OF THE FOREGOING, immediate passage of this bill is earnestly sought.
