House Bill No. 3786

Introduced by **Representatives SOLOMON R. CHUNGALAO,

EXPLANATORY NOTE

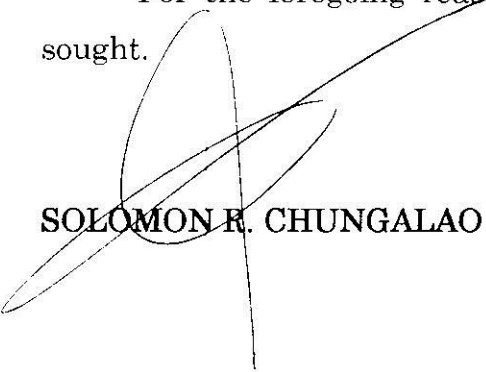

This legislative measure is a substitute bill to House Bill No. 1904 which was filed earlier this 19th Congress. It was originally filed as House Bill No. 10519 in the 18th Congress without the integration of Major Ferdinand Edralin Marcos Emergency Hospital. It was approved by the House on December 13, 2021 and was also approved in the Senate Committee Hearing on March 22, 2022.

This bill is filed to address the cries and pleas of the people of Ifugao as a province and those in the eastern border of Mt. Province for a decent hospital while re-establishing the old Major Ferdinand Edralin Marcos Emergency Hospital in Barangay Panopdopan, Municipality of Lamut, Province of Ifugao which was abandoned by the provincial government in 2010. It would also address the needs of those from the province of Kalinga and Apayao for sufficient medical facilities without tribal and ethnic discriminations. Furthermore, Ifugao is the home of the famous rice terraces with four (4) UNESCO heritage sites. One of the essential requirements for a meaningful and doable tourism industry is the establishment and presence of a decent medical facility to address the needs of foreign and local tourists in the area.

Ifugao's population was recorded at 207,498 in the 2020 Census of Population and Housing, and was projected to significantly increase by 2050. This shows an increase of over 17,000 from the 2010 population which was 191,078. Of Ifugao's eleven municipalities, Alfonso Lista's recorded population was the largest (at 16.42%), followed by Lamut (12.64%), Aguinaldo (10.18%), Banaue (9.95%), Lagawe (9.10%), Tinoc (8.9%), Kiangnan (8.53%), Asipulo (7.69%), Mayoyao (7.53%), Hingyon (4.79%), and Hungduan (4.27%). As Ifugao is a popular tourist destination, this population is often augmented by thousands of outsiders. An estimated 250,000 foreign as well as local tourists and visitors come to the province each year.

Yet despite the growing population and volume of visitors received by our province every year, it is an acknowledged reality that provincial health facilities are unable to meet their needs. It is a common experience for residents of Ifugao and tourists to have to go out of the province in order to receive adequate health care, often to Bauko in the Mountain Province or Solano in Nueva Vizcaya. In the interest of providing more Ifugaos, as well as the neighboring eastern borders of Mt. Province, Province of Kalinga, and Province of Apayao, and foreign and local tourists, with easier access to adequate health care, this bill proposes for the establishment in the Municipality of Mayoyao, Province of Ifugao, a Level II general hospital to be known as the Eastern Cordillera Regional Hospital, and integrating therewith the Major Ferdinand Edralin Marcos Emergency Hospital in the Municipality of Lamut, Ifugao and retaining its name as such.

For the foregoing reasons, speedy passage of this measure is earnestly sought.
