HOUSE BILL NO. **4382**

Introduced by Rep. LORETO B. ACHARON

AN ACT
MANDATING THE UPGRADE OF THE SALARY RANGES OF DENTISTS IN THE PUBLIC SECTOR,
APPROPRIATING FUNDS THEREFOR AND FOR OTHER PURPOSES

EXPLANATORY NOTE

This bill seeks to upgrade the salaries of dentists in the public sector to a level commensurate to their qualifications, competence and contributions to the over-all public health initiatives and thrusts of government.

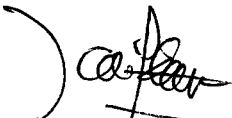

There can be no doubt in anyone's mind that oral health is a key indicator of overall health, well-being, and quality of life. Poor dental health does not only impact teeth and gums, or our ability to project a winning smile, or to speak, smell, taste, touch, chew, and swallow.

Research shows that poor dental health is linked to several major health problems such as heart diseases, Alzheimer's, diabetes, stroke, arthritis, a weakened immune system, and many respiratory issues.

The importance of dentists in society in modern times can no longer be ignored and as essential members of the medical community, should be accorded a more appropriate salary grade level than that which they are conferred with in the present unified compensation and position classification system administered by the Department of Budget and Management (DBM).

The glaring disparity between the pay scale of private and public dentists is a major factor why many practicing dentists are not interested to work in government – a lingering concern the solution of which is way overdue.

In view thereof, passage of this bill is earnestly sought.
