NINETEENTH CONGRESS

First Regular Session

House Bill No. **5044**

Introduced by Representative Albert S. Garcia

EXPLANATORY NOTE

The Philippine General Hospital (PGH) is one of the tertiary state owned government hospitals in our country. It is considered as the biggest hospital with a 1,500-bed capacity. It is a mixed-use hospital, with 1,000 beds for indigent patients and 500 beds for private patients, and offers some of the lowest rates for patients and is generally known as the hospital for indigent patients. On an average year, about 600,000 patients pass through its hospital's halls, 98% of which are indigents,

It continues to achieve its noble mission of providing health care through the subsidy it receives from the Distribution Acceleration Plan (DAP) funds that the University of the Philippines (UP) system received and the earnings from its pay patient departments, incomes from the laboratory procedures and pharmacy sales and donations from different organizations among others.

Nevertheless, such funds are insufficient to finance all its essential services. In conformity of such policies of the State to provide and ensure basic social service to its people, this bill seeks to fulfill the same by considering Philippine General Hospital or PGH as the national university hospital of the Philippines. Through this measure, enough funding will be received by the hospital. Consequently, it can now finance all its essential services. Health care would be more accessible and affordable to the people especially to the paupers and Sickly patients.

In lieu of the foregoing, immediate passage of this bill is earnestly sought.

REP. ALBERT S. GARCIA
