

EIGHTEENTH CONGRESS OF THE)
REPUBLIC OF THE PHILIPPINES)
Second Regular Session)

House Bill No. 5893

Introduced by Representative ROMMEL RICO T. ANGARA

**FOR RECLASSIFICATION OF BRGY. CALOACAN, DIPACULAO, AURORA FROM
TIMBERLAND/AGRICULTURAL LAND AREA TO ALIENABLE AND DISPOSABLE
LAND**

EXPLANATORY NOTE

This bill seeks to declare the lands situated at Brgy. Caloacan in the Municipality of Dipaculao, Province of Aurora, which are currently classified as timberland or agricultural lands to be reclassified as agricultural lands open to disposition for agricultural, residential, commercial, industrial or other productive purposes.

The Department of Environment and Natural Resources issued DENR Administrative Order (DAO) No. 2008-24 which provides for the guidelines for the assessment and delineation of boundaries between forestlands, national parks and agricultural lands, consistent with the government's twin policies to ensure protection and sustainable development of forestlands, national parks and resources therein and to accelerate the disposition and adjudication of agricultural lands.

This representation arrived at the draft of this bill after a careful deliberation and assessment with the office of the Regional Assessment and Delineation Team (RADT) of DENR Region III. The parcels of land subject of this bill have been determined by the DENR to be appropriate for reclassification from forestland to alienable and disposable land which may be used for various productive purposes.

The current classification of the subject parcels of land effectively prevents the cultivation and the more appropriate use of the same. The lands of Brgy. Caloacan, similar to most areas in the Province of Aurora are areas with a great potential for the production of perennial and annual crops which will contribute to the livelihood of local farmers and ultimately to the economy and progress of the whole province.

In view of the foregoing, the immediate passage of this bill is earnestly sought.

The natural resources in the Philippine territory consists of the nation’s sea, land and air and are what composes our National Patrimony. Along with the nation’s duty to protect these natural resources is the responsibility to utilize them in ways that will achieve the goals of the national economy which aims to have a more equitable distribution of opportunities, income, and wealth; a sustained increase in the amount of goods and services produced by the nation for the benefit of the people; and an expanding productivity as the key to raising the quality of life for all, especially the underprivileged. In the pursuit of these goals, all sectors of the economy and all regions of the country shall be given optimum opportunity to develop. Such mandate is reflected in efforts to make our resources more accessible and useful for the Filipinos. Resources that are otherwise left idle should be developed in a manner which will effectively aid in the improvement of the lives of our less fortunate countrymen while continuously putting in efforts to protect, enrich and develop the same.
