HOUSE BILL NO. 6371

Introduced by Rep. Eleandro Jesus F. Madrona

EXPLANATORY NOTE

The Suba Cove is a mangrove sanctuary serving as refuge of pump boats during typhoons in Barangays San Roque, Mangansag and Mabini in the Municipality of Corcuera, Province of Romblon.

This inlet waterway with all its mangroves is a spectacular scenery by itself as well. It has, in fact, started to garner the attention of residents and local tourists as a suitable "hang-out" place.

While the tourism activity in the area is obviously a positive development as it affords the residents therein a means for their livelihood, there is a long term need, on the other hand, to balance the promotion of the tourism potential of the area vis-à-vis its natural use as a refuge during typhoons. Hence, to enhance both the preservation and sustainability of its use as a marine sanctuary and refuge area, while at the same time preserving its tourism potential, there is a need to declare the Suba Cove as an ecotourism zone.

With this in mind, the passage of this bill is earnestly sought.
