Quezon City, Metro Manila

Nineteenth Congress
First Regular Session

HOUSE BILL NO. 7747

Introduced by Honorable Antonio "Ony" A. Ferrer

EXPLANATORY NOTE

The challenge in administering a large barangay is the difficulty and at times, inefficiency of the said local government unit to sufficiently address issues and provide essential services to its constituents. Additionally, since better and more efficient governance calls for more manpower, a larger local government unit will require the proportionate number of manpower to perform its duties effectively.

One of the most pressing issues today is peace and order, which necessitates the presence of a minimum number of *barangay tanods* to patrol and respond to calls for immediate assistance in times of emergency. Thus, when a barangay grows into a large territory or constituency, it would be practically impossible for *barangay tanods* maintaining its original number and capacity to respond to increasing calls for help all at once especially in remote areas. Meanwhile, in times of natural disasters, our manpower in the local government unit must be reasonably adequate in proportion to the population or geographical territory of the locality. Other factors to take into account are economic opportunities in a growing barangay, migration or the influx of informal settlers, and others of similar nature.

Thus, all sectors of the community should be able to receive basic governmental support and services. And this could easily be done by dissolving large barangays into smaller, more manageable units.

In order to maintain better public service, the number of public servants who can effectively carry out their assigned tasks should be inversely proportional to the size of the territory of the barangay.

Thus, the bill earnestly seeks the division and creation of three barangays in the City of General Trias, especially those currently subsumed under a large unit. This way, timely and sufficient delivery of public services is ensured.

A handwritten signature in black ink, consisting of a series of loops and a long horizontal stroke extending to the left.
