HOUSE BILL NO. 8109

Introduced by **REP. BERNADETTE “DETTE” G. ESCUDERO**

EXPLANATORY NOTE

The enactment of Republic Act No. 6977, as amended by Republic Act Nos. 8289 and 9501 in 1997 and 2008, respectively, otherwise known as Magna Carta for Micro, Small and Medium Enterprises (MSMEs), affirmed the responsibility of the State to promote, support, strengthen, and encourage the growth and development of MSMEs in all productive sectors of the economy. One of the salient features of the MSME law is the mandate imposed in all lending institutions to set aside part of their loan portfolio and make it available for small enterprise credit for a period of ten (10) years. This mandatory credit allocation benefits MSMEs in two ways: first, through the provision of channels to source financing to expand or jumpstart their operations; and second, generation of funds through penalties to finance MSME interventions.

The pandemic and its impact on business operations and customer demand have adversely impacted the MSME sector, causing temporary and permanent closures of MSME establishments and the displacement of thousands of employees. While the economy is on its way to recovery, MSMEs remain particularly vulnerable to pre-pandemic concern such as the limited access of MSMEs to financing and markets. As noted in the 2017-2022 MSME Development Plan, lending institutions tend to prefer non-MSME borrowers because of higher gains, lower credit risk, higher repayment rate and collateral availability. Data from the Bangko Sentral ng Pilipinas (BSP) show that in the last quarter 2021, banks only extended 2.08% and 3.3% of their total loan portfolio to micro, small, and medium enterprises, respectively.

The restricted access to financing, among other challenges, needs to be addressed to ensure swift recovery not only of MSMEs but the entire economy. This bill seeks to reinstitute this mandatory credit allocation to provide a time-bound intervention to ease the MSMEs' financial burden and hasten its recovery from a global pandemic. Additionally, the proposed measure mandates the Department of Trade and Industry, in coordination with the department of finance and the BSP, to formulate and implement other interventions to improve MSMEs' access to formal sources of financing. With these twin provisions, it is hoped that providing better access to wider range of financial services would help MSMEs realize their full potential in generating employment and boosting economic growth.

In view of the foregoing, the passage of the measure is earnestly sought.

Respectfully submitted.
