HOUSE BILL NO. 9857

Introduced by Representative Ivan Howard A. Guintu

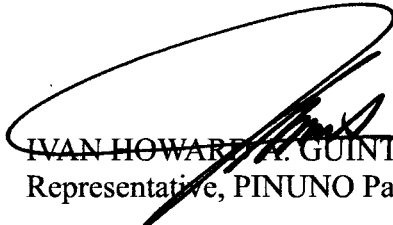

EXPLANATORY NOTE

Section 7, Article XIII of the 1987 Constitution provides that “[t]he State shall protect the rights of subsistence fishermen, especially of local communities, to the preferential use of local marine and fishing resources, both inland and offshore. It shall provide support to such fishermen through appropriate technology and research, adequate financial, production, and marketing assistance, and other services.”

Despite this constitutional provision, our fisherfolks remain to have the highest poverty incidence among the basic sectors in 2021. One of the reasons for this is the loss of potential income of fisherfolks due to the losses incurred during the post-harvest of fishes. Around 25-40% of fishes that are caught end up spoiling due to lack of post-harvest facilities and equipment.

This bill seeks to establish a fish port in the municipality of President Roxas in the Province of Capiz. President Roxas boasts a rich fishing ground that can greatly benefit from the establishment of the fish port. This will further bolster the productivity of the fisheries industry in the area by reducing post-harvest losses due to wastage and spoilage, thereby uplifting the livelihood of local subsistence fisherfolks.

In view of this, early passage of this bill is sought.
