

Republic of the Philippines
HOUSE OF REPRESENTATIVES
Quezon City

NINETEENTH CONGRESS
Second Regular Session

HOUSE BILL NO. 10287

Introduced by: REPRESENTATIVE ARNULF BRYAN "ARNIE" B. FUENTEBELLA

EXPLANATORY NOTE

Sec. 15 of the Art. II of the 1987 Philippine Constitution states that:

"Section 15. The State shall protect and promote the right to health of the people and instill health consciousness among them."

Likewise, Sec. 11 of Art. XIII of the same Constitution also provides:

"Section 11. The State shall adopt an integrated and comprehensive approach to health development which shall endeavor to make essential goods, health and other social services available to all the people at affordable cost. There shall be priority for the needs of the under-privileged, sick, elderly, disabled, women, and children. The State shall endeavor to provide free medical care to paupers."

xxx"

Our President re-emphasized these general principles upon signing Republic Act No. 11959 into law, directing the establishment of specialty centers in Department of Health hospitals in every region government-owned and controlled corporation (GOCC) specialty hospital.

For context, the Bicol Medical Center (BMC) – Camarines Sur's premier state-sponsored hospital – is 40 kilometers away from the Municipality of Tigaon, the municipality nearest Naga City. It will take our constituents at least an hour under normal circumstances to receive specialized natal care. Given the importance of neonatal and postnatal care, the Fourth District of Camarines Sur will greatly benefit from the establishment of a specialized medical center on a location greatly accessible to the people of the Partido District.

In view of the foregoing, the passage of this bill is earnestly sought.
