NINETEENTH CONGRESS
Second Regular Session

House Bill No. **10334**

INTRODUCED BY REP. PM VARGAS

AN ACT
ESTABLISHING A BREASTFEEDING CENTER IN BARANGAY GREATER LAGRO, NOVALICHES, QUEZON CITY

EXPLANATORY NOTE

The Philippines is one of the 37 countries that fully implement the International Code of Marketing of Breastmilk Substitutes through its Executive Order No. 51 or the Milk Code. Enacted in 1986, the Milk Code ensures the protection of the breastfeeding culture in the country. However, after more than three decades of the implementation of the Milk Code, studies still show that Filipino mothers have yet to fully understand the benefits of feeding their babies exclusively with breast milk.

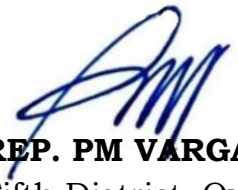

According to the United Nations Children's Fund, only 34% of Filipino infants under six months old are exclusively breastfed. Most Filipino mothers opt to use milk formulas due to the alleged inability to produce breast milk and time constraints.

While the Expanded Breastfeeding Promotion Act (Republic Act 10028) has been enacted to make workplaces friendly to breastfeeding mothers, this Act has not been fully implemented and is only rather focused on select private and government institutions.

To further strengthen the country's existing policies on breastfeeding and promote this among mothers, this bill seeks to establish a breastfeeding center in Barangay Greater Lagro, Novaliches, Quezon City. The breastfeeding center shall serve as a haven of information on breastfeeding and shall nourish a sense of community and support among breastfeeding mothers and their families.

By establishing more spaces for breastfeeding mothers at the barangay level, the country can reap the optimum benefits of breastfeeding. It is the hope of this measure to empower mothers while ensuring a healthier generation of newborn Filipinos to come.

In view of the foregoing, immediate passage of this bill is earnestly sought.
