NINETEENTH CONGRESS
Second Regular Session

HOUSE BILL NO. 10429

Introduced by **HON. EDGAR M. CHATTO**
First District, Bohol

EXPLANATORY NOTE

The municipality of Loon in the province of Bohol, consisting of 67 barangays, has been bestowed with rich marine paradise, natural lakes, waterfalls and mangrove gardens, among others. The Cabilao and Sandingan islands, located in Loon, are considered favorite tourist destinations. With the development of an international cruise port in Catagbacan, Loon is viewed as an emerging giant of Bohol's eco-cultural tourism industry.

The entire islands of Cabilao and Sandingan were proclaimed as Mangrove Swamp Forest Reserves under Proclamation No. 2152 in 1981. This was confirmed upon the passage of Republic Act 7586, or the National Integrated Protected Areas System (NIPAS) Act of 1992.

As a champion of the environment, Bohol not only sees the necessity but considers it a solemn duty to protect and preserve these important ecological endowments.

However, only the barangay of Canigaan and a portion of Calayugan of Sandingan Island and Lake Danao in Barangay Pantudlan of Cabilao Island have actual mangroves worthy to be protected and covered under the NIPAS Act. A big percentage of these islands remain agricultural, residential and with very few commercial establishments. As per survey of the Department of Environment and Natural Resources, all estuarine, mangroves, seagrasses and corals surrounding Cabilao and Sandingan Islands contain a total area of 599.43 hectares of protected seascape.

These islands have remained idle and unproductive for a long time, once reclassified, will open the opportunity for tourism, business and economic developments. These islands, like Panglao, will undoubtedly be hailed as one of the world's famous tourist destinations and another addition to Philippines' pride once developed as it boasts of beautiful diving spots sought after by diving enthusiasts. Panglao is among the disestablished islands under the NIPAS Act.

Section 5 (4) of the NIPAS Act mandates that within three (3) years from the effectivity, the DENR shall study and review each area composing the system as to its suitability or non-suitability for preservation as protected area. However, more than twenty (20) years had elapsed, the DENR has yet to submit a study and a review on the suitability or non-suitability of the two (2) islands to be included in the system.

With the steady influx of tourists to these areas in recent years, there is a need to declare certain areas of the islands of Cabilao and Sandingan as protected areas to ensure their preservation and sustainability with the necessary consequence of reverting the rest of the islands to its true classification as alien and disposable thus allowing development of the area and the improvement of transportation to the benefit of the constituents and tourists.

In view of the foregoing, the immediate passage of this bill is sought.
