

Republic of the Philippines
House of Representatives
Quezon City

NINETEENTH CONGRESS

Third Regular Session

House Bill No. **11482**

Introduced by Representative Albert S. Garcia

EXPLANATORY NOTE

1 The **Province of Bataan** is rapidly emerging as a **major economic hub**, driven by
2 large-scale infrastructure projects, the expansion of economic zones, and increased
3 migration. The construction of the **Bataan-Cavite Interlink Bridge (BCIB)** will
4 drastically change the province's landscape and will position Bataan as the **next major**
5 **gateway**. As a result, Bataan will see a **surge in transient populations, workers,**
6 **businesses**, and logistics operations which will increase the incidence of legal
7 disputes, criminal cases, and commercial litigations. The influx of transients and
8 economic activity will lead to **new challenges in law enforcement and judicial**
9 **proceedings** and will require an urgent expansion of judicial capacity within Bataan to
10 maintain law and order efficiently.

11
12 The **expansion of the Freeport Area of Bataan (FAB)** and ecozones may also
13 contribute to increased commercial disputes and regulatory matters in Bataan. If the
14 Bills establishing the Metro Bataan Development Authority (MBDA) and the Special
15 Economic Development Zone Act (SPEDEZA) are signed into law, they will further
16 streamline governance and enforcement mechanisms, resulting to stricter
17 implementation of laws and regulations. With enhanced enforcement, there will likely
18 be an increase in legal cases related to civil, environment, business compliance, and
19 corporate disputes. Without additional courts, these cases will pile up and will result to
20 judicial backlogs and delay in the delivery of justice for both individuals and entities
21 alike.

22
23 **Population growth**, fueled by **migration** and employment opportunities are therefore
24 both an opportunity and a challenging factor. As Bataan transitions into a major
25 metropolitan area, the demand for judicial services should significantly increase in
26 proportion to its expanding population.

27
28 The Courts in Bataan are divided into three (3) territorial jurisdiction. The first territorial
29 jurisdiction covers the municipalities of Dinalupihan and Hermosa. The second territorial
30 jurisdiction covers Balanga City and the municipalities of Orani, Abucay, Samal, Orion,
31 Morong and Bagac. The third covers the municipalities of Mariveles and Limay.

1 These three territorial jurisdiction should have at least the same number of courts in
2 order to balance their services and so that there is no overwhelming that will ensue.

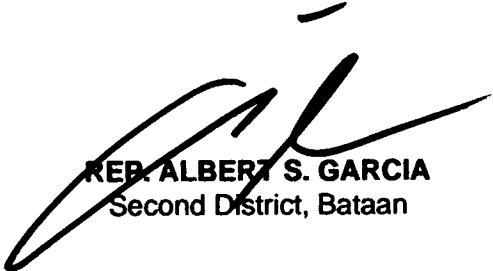

3
4 For instance, out of the three territorial jurisdictions, the first territorial jurisdiction is the
5 only one that has **no Family Court**, the other two having one each. The first territorial
6 jurisdiction, with a combined population of 195,652 currently has two (2) regular
7 Regional Trial Courts (RTC) branches, forcing them to hear and try family-related
8 cases that should ideally be handled by a separately designated Family Court. In the
9 last ten years, 1,082 (22.6%) out of the 4,784 cases currently filed in this jurisdiction
10 involved family-related matters.

11
12 Meanwhile, the second territorial jurisdiction has a combined population of 325,397, the
13 highest among the three territorial jurisdictions. It has five (5) RTC branches and one
14 (1) Family Court. In the last 10 years, there have been 12,617 cases filed in these
15 courts. The third territorial jurisdiction has 228,151 residents and is being served by just
16 three (3) RTC branches and one (1) Family Court. In the last 10 years, 6,838 cases
17 have been filed in these courts.

18
19 Presently, there is one (1) Municipal Circuit Trial Court (MTCC) in the first territorial
20 jurisdiction, five (5) Municipal Trial Courts in the second territorial jurisdiction and two
21 (2) Municipal Trial Courts (MTCs) in the third territorial jurisdiction.

22
23 With increased mobility as will be expected from the construction of the BCIB, among
24 other factors, comes the inevitable rise in traffic violations, smuggling, human trafficking,
25 drug-related offenses, and other transient-related crimes. The Bataan courts must be
26 prepared to handle these cases efficiently to maintain public order and security. Without
27 additional judicial resources, dockets will become clogged and will delay the
28 administration of justice and undermine confidence in the legal system. We must be
29 prepared this early. We must strengthen today, or risk being shackled by tomorrow's
30 regrets.

31
32 This Bill therefore seeks to address the foregoing judicial challenges by creating four
33 (4) additional RTC branches, which includes a Family Court, as well as creating one (1)
34 additional Municipal Trial Court (MTC) in Hermosa, one (1) additional Municipal Trial
35 Court (MTC) in Mariveles and one (1) additional Municipal Trial Court in Cities (MTCC)
36 in Balanga City. These new courts will not only alleviate the current backlog but also
37 ensure that Bataan's judicial system remains efficiently responsive to its fast-growing
38 economy and population. The immediate passage of this measure is strongly
39 recommended to safeguard judicial efficiency and support Bataan's transformation into
40 a major economic and transit hub which will be vital to our country's economic progress,
41 more so now that the province of Bataan and its component city and municipalities shall
42 comprise the Metro Bataan Development Authority (MBDA), should the Bill therefor be
43 approved by the President, and that the construction of the BCIB Project could start
44 soon this year.
