HOUSE BILL NO. 1489

Introduced by Representative **ANTONINO B. ROMAN III**

EXPLANATORY NOTE

This bill seeks to declare Barangay Tala in the Municipality of Orani, Province of Bataan as eco-tourism zone. It was approved on third reading during the 18th Congress and was transmitted to the Senate.

It is the policy of the State to accord priority status to sustainable, vibrant and profitable tourism development as one of the engines of socio-economic growth and cultural affirmation to generate investment, foreign exchange and employment. Environmentally sound and community participatory tourism programs have spurred socio and economic development in the tourism industry. In today's growth trend, the problem of unemployment remains unresolved. Tourism-related sector is becoming an increasingly important source of economic prosperity by way of creating job opportunities. The total number of arrivals of tourists and sightseers to the Philippines has greatly contributed to the improved economy and to our country's status as a rising tourist destination.

Part of the Bataan National Park, one of the most sought-after tourist destinations in Bataan for its serene and natural beauty and unique terrain, is located in Barangay Tala. Barangay Tala is also famous because of the Sinagtala Farm Resort and Retreat Park. The declaration of Barangay Tala as local eco-tourism zone will definitely help enhance its continued tourism viability. Further, Barangay Tala could be easily developed into a first-class eco-tourism zone if it is equipped with amenities and facilities complementing its full potential as a tourism venue.

The lack of allied infrastructure and facilities such as hotels, lodges, camps, potable water supply and public transportation hinder the socio-economic and environmental development of the area. Developing this barangay into an eco-tourism zone will mold and enhance a sense of history and pride for all residents of Tala and neighboring communities, thereby promoting the Bataan National Park as a tourist destination. Further, it will provide employment opportunities to local residents and with the influx of tourists, the eco-tourism zone will be a significant source of business opportunities.

In view of the foregoing, passage of this bill is earnestly sought.
