HOUSE BILL NO. 1848

Introduced by Honorable Roger G. Mercado

EXPLANATORY NOTE

This Bill seeks to create and or establish a Science High School in Maasin City, Southern Leyte to be known as Southern Leyte Science High School.

Maasin City is a third class city in the Province of Southern Leyte, with a population 81, 250 according to the 2010 Census. However, in spite of this vast population, very few elementary graduates of the said province could pursue science education due mainly to lack of resources, facilities and amenities of a Science High School.

The primordial objective therefore of this bill is to encourage youngsters who are interested in search and discovery and have a natural talent for technical subjects. The orientation of the curricula in the Science High School focuses on educating students who have penchant for science and technology.

It is worthy to mention that the Constitution mandates the state to provide education accessible to all, The nearest Science High School in Southern Leyte is one hundred eighty (180) kilometers away, located in Tacloban City. If approved, this Science High School in Maasin City will benefit not only students from Southern Leyte but also students from nearby towns in Leyte which are too far from Tacloban, Leyte.

In view of the foregoing reasons, the immediate approval of this bill is earnestly solicited.
