House Bill No. 3604

Introduced by Representative
LEODY "ODIE" F. TARRIELA

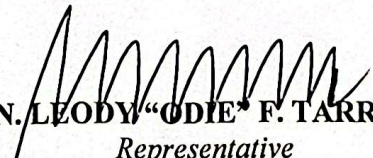

EXPLANATORY NOTE

The Municipality of Paluan in the Province of Occidental Mindoro is located at the northernmost tip of the Province. According to the 2020 census, Paluan has a population of almost 20,000.. At present, residents obtain their basic healthcare needs from the Paluan Community Hospital which lacks the necessary facilities and personnel to cater the municipality's growing population, especially those in need of critical care. Patients requiring advanced treatment are often brought to the Provincial Hospital in Mamburao, which is 2-3 hours away, or ferried to Batangas, a good 5-6 hour travel depending on the availability of RO-RO vessels.

The establishment of a Level II Medical Center in the Municipality of Paluan will provide the 20,000 residents access to primary and secondary healthcare services such as consultations with specialists in medicine, pediatrics, ob-gyne, and surgery. The hospital will also have emergency and outpatient services, isolation facilities, surgical and maternity facilities, departmental clinical services, general ICU, high risk pregnancy unit, NICO, and dental clinic. Ancillary services such as blood stations, a tertiary clinic laboratory, and 2nd level X-ray will also be provided.

With this Bill, residents of Paluan in need of basic, emergency and maintenance healthcare services will no longer have to travel for long hours to receive treatment.

In view of the foregoing, the approval of this bill is earnestly sought.
