First Regular Session

House Bill No. 3605

Introduced by Representative
LEODY "ODIE" F. TARRIELA

EXPLANATORY NOTE

The Municipality of Sablayan in the Province of Occidental Mindoro has a total land area of 2,188 square kilometers, making it the largest municipality in the Philippines. According to the 2020 census, Sablayan has a population of more than 90,000. At present, residents obtain their basic healthcare needs from the municipality's district hospital, a level 1 hospital which lacks the necessary facilities and personnel to cater to the healthcare needs of its growing population, especially those needing critical care. Patients in need of advanced treatment are often brought to hospitals located in other municipalities/provinces which are at least 4-5 hours away.

The establishment of a Tertiary Hospital in the Municipality of Sablayan will provide 90,000 residents access to tertiary healthcare services such as consultations with specialists in medicine, pediatrics, ob0gyne, and surgery. The hospital will also have emergency and outpatient services, isolation facilities, surgical and maternity facilities, departmental clinical services, ICU, high risk pregnancy unit, NICO, dental clinic, Physical Medicine and Rehabilitation Unit, Ambulatory Surgical Clinic, and Dialysis Clinic. Ancillary services such as tertiary clinic laboratory with histopathology, blood bank and 3rd level X-ray will also be provided.

With this Bill, residents of Sablayan and other nearby municipalities who are in need of basic, emergency, or maintenance healthcare services will no longer have to travel for long hours to receive treatment.

In view of the foregoing, the approval of this bill is earnestly sought.
