TWENTIETH CONGRESS
First Regular Session

House Bill No. **3613**

Introduced by **Rep. ANGELO MARCOS BARBA**
2nd District, Ilocos Norte

EXPLANATORY NOTE

Food security is in peril.

Recent studies have shown that the average age of Filipino farmers today is 57 to 59 years old.¹ Filipino farmers are aging and the interest of the younger generation to pursue a career in agriculture is diminishing. Consequently, the number of enrollees in agriculture courses is declining. This has led to a gap in the agricultural workforce which gravely affects food production in the country.

While the government is working hard to boost the agriculture sector by providing better irrigation facilities, institutional credit, farm subsidies, and introduction of new farm technology, it must also find ways that would not only give farm workers reason to stay in the field, but most importantly, encourage the youth to pursue a career in agriculture.

Hence, this bill.

This proposed measure seeks to establish a Young Farmers and Fisherfolk Challenge Program that shall support and empower the young farmers and fisherfolk to be active partners in food security and agricultural development and modernization. It seeks to ensure young farmers and fisherfolk participation in policy formulation and program implementation relative to the agriculture sector, and provide institutional support for agri-business and agri-entrepreneurship initiatives of the youth to fully realize their roles as agents and partners for development.

The bill also proposes the creation of a council composed of representatives from all relevant government agencies to oversee the implementation of the Program. This promotes a whole-of-government approach.

In light of the foregoing, the immediate passage of this bill is earnestly sought.
