House Bill No. **3659**

Introduced by: **REPRESENTATIVE ERIC L. OLIVAREZ**

EXPLANATORY NOTE

The Philippines stands out as East Asia's Biggest dog owner, with six times the per-capita number of pets seen in China. In the Philippines, there is one pet dog for every eight (8) people. While cats on the other hand, are the second most popular domesticated animal in the Philippines. From these data provided, it is quite clear that the Philippines is a pet-loving country. It is easy to understand why the Philippines is a pet-loving country, as numerous studies show that pets reduce stress, anxiety, and depression, ease loneliness and provide valuable companionship. With the emergence of pet-friendly public places today, especially malls, it is only proper that pet owners are allowed to bring their pets with them on public utility vehicles (PUV).

As pet owners consider their pets as important members of their families, it is understood that pet owners are motivated to provide love, care and devotion to their pets. The passage of this bill limits the unfortunate occurrence of having to leave pets at home just because of issues in public transportation. Likewise, promotion of the pet's welfare will also come into play as the passage of this Bill will make it easier for pet owners to bring their pets around different places which in turn contributes to their pets' physical, social, emotional and mental well-being.

This bill intends to allow pet-owners to bring their pets on PUVs. It further mandates PUV owners to provide designated animal compartments to accommodate said animals.

In view of the foregoing, the passage of this Bill is earnestly sought.
