AN ACT

DECLARING A PARCEL OF LAND LOCATED IN THE CALAUAG WATERSHED FOREST RESERVE (CWFR) IN THE MUNICIPALITY OF CALAUAG IN THE PROVINCE OF QUEZON, A PROTECTED AREA WITH THE CATEGORY OF PROTECTED LANDSCAPE UNDER THE NATIONAL INTEGRATED PROTECTED AREA SYSTEM, TO BE REFERRED TO AS THE CALAUAG PROTECTED LANDSCAPE, PROVIDING FOR ITS MANAGEMENT, AND APPROPRIATING FUNDS THEREFOR

EXPLANATORY NOTE

This bill seeks to declare the Calauag Watershed Forest Reserve (CWFR) situated in the Municipality of Calauag, Quezon into the Calauag Protected Landscape (CPL).

The proposed protected area (PA) harbors a diverse array of ecologically important and endemic species of flora and fauna, some of them classified as critically endangered, vulnerable and threatened species. Thus, the biodiversity of the area should be protected, enhanced and managed through a move encompassing the Expanded National Integrated Protected Areas System (ENIPAS).

The proposed PA provides a very precious commodity water, water for domestic and agricultural uses of surrounding communities, as well as potable water for the Municipality of Calauag. The water production capability of the area should be enhanced and sustained through proper integrated watershed management strategies to ensure the sustainability of water supply for the present and future generations of stakeholders.

In 2022, in compliance with one of the provisions of the ENIPAS, initial components of the NIPAS have undergone the Protected Area Suitability Assessment (PASA). Among the targets for PASA within the jurisdiction of CENRO

Calauag, Quezon is the Calauag Watershed Forest Reserve (CWFR) which was accomplished for FY 2022.

The CWFR has a total area of 327.86-hectare under Presidential Proclamation No. 367 dated March 29, 1939. Hence, upon PASA, targeting some 36.79 hectares showed exemplary results in terms of the biodiversity of flora and fauna. Out of the eighty-seven (87) species of flora recorded, fourteen (14) are included in the IUCN Red List and DAO 2017-11, i.e., Apitong, Molave and Yakal (endangered), Bolong-eta, Dao, Kalantas, Makaasim, Malabayabas, Pahutan, Red and White Lauan (vulnerable), Amuguis and Piling Liitan (near threatened).

With regard to fauna, eighty (80) species were monitored, of which twelve (12) are listed with IUCN Red List and DAO 2019-19, namely, Amethyst brown dove, Colasisi, Tarictic hornbill, and Philippine forest turtle (critically endangered), Philippine cobra, Philippine pit wiper, Philippine Yellow-throated cobra, Reticulated Python, Tokay gecko, Bayuko, and Luzon fanged frog (other threatened). Birds are the most dominant fauna wherein forty-four (44) species were recorded.

In view of the foregoing, the immediate passage of this bill is earnestly sought.
