House Bill No. **4177**

Introduced by: **REPRESENTATIVE ERIC L. OLIVAREZ**

EXPLANATORY NOTE

Article V, Section 1 of the 1987 Philippines constitution provides that, “Suffrage may be exercised by all citizens of the Philippines not otherwise disqualified by law, who are at least eighteen years of age, and who shall have resided in the Philippines for at least one year and in the place wherein they propose to vote for at least six months immediately preceding the election. No literacy, property or other substantive requirement shall be imposed on the exercise of suffrage.”

The right of suffrage is one of the pillars of Philippine democracy, it is the very soul of people’s expression for the conduct of State affairs. The voting public should not be constrained or limited in the free exercise thereof by the overcrowded voting precincts, inconvenient locations and additional burdens that come along with the whole process. The exercise of such right should then be allowed to reflect not only the use of modern or computerized technologies by the Commission on Election (COMELEC) but more so in adapting to the changing times brought by fast paced lifestyle, and seeking the convenience of the electorate.

It is a common practice for Filipino to flock the malls for a variety of reasons, one of which is for convenience. Given that it has become a one-stop shop for everyone, a hub on its own where business and recreation take place. These establishments maintained by private entities have risen to all the demands of the public; comfort brought by the air conditioning, availability of parking space, sufficient security measures, safety for all its patrons, presence of police authorities within the area, and coordinated control center for the facilities.

The creation of voting precincts/sites in these places would yield to better attendance of the voters who will be positively affected by the appropriate progress for the electorate. This bill seeks to encourage more citizens to exercise their right to vote through the facilitation of elections by means of providing

comfort, especially for the senior citizens who will be spared of the burden of going to the crowded public school precincts.

The Commission on Election (COMELEC) has piloted a program where they allowed and actually conducted registration procedures within the premises of shopping malls in accordance with the normal operating hours, thus the goal to educate and encourage the people to get registered was achieved. This bill seeks to attain the best results for the people and make sure that resources of the government are being utilized to enhance the accessibility of polling places.

Hence the passage of this bill is earnestly sought.
