House Bill No. **5539**

EXPLANATORY NOTE

Education is the cornerstone of national progress and human development. Pursuant to Article XIV, Section 1 of the 1987 Philippine Constitution, the State shall “protect and promote the right of all citizens to quality education at all levels and shall take appropriate steps to make such education accessible to all.”

The passage of Republic Act No. 10533, or the *Enhanced Basic Education Act of 2013*, introduced the K to 12 Program, extending basic education to include Senior High School (SHS) — Grades 11 and 12 — to better equip learners with the competencies necessary for higher education, employment, and entrepreneurship.

At present, Tambo National High School in Brgy. Tambo, Parañaque City houses a combined Junior and Senior High School facility serving both Grade 7–10 and Grade 11–12 students. However, the increasing number of enrollees each year has resulted in overcrowding, strained resources, and limited learning spaces. These conditions have significantly affected the effective delivery of the K to 12 curriculum and the overall quality of instruction.

The proposed measure seeks to establish a separate Senior High School in Barangay Tambo, distinct and independent from the existing Junior High School. This separation will:

1. Decongest existing classrooms and ensure adequate learning facilities for both levels;
2. Enhance curriculum implementation by allowing focused management and resource allocation suited to Senior High School programs;
3. Improve student outcomes and readiness for higher education and employment through dedicated facilities, laboratories, and industry-aligned programs; and
4. Strengthen the local educational system in line with the objectives of Republic Act No. 10533 and the Department of Education’s school rationalization policy.

The establishment of a Tambo National Senior High School, under the supervision of the Department of Education (DepEd), will provide a sustainable solution to the growing educational demands of the community and ensure that every learner has access to quality and conducive learning environments.

This initiative aligns with the government’s commitment to make education accessible, equitable, and responsive to the needs of every Filipino learner.

In view of the foregoing, the immediate passage of this measure is earnestly sought.
