

Republic of the Philippines

TWENTIETH CONGRESS
First Regular Session

HOUSE BILL NO. 5570

Introduced by REP. MERCEDES K. ALVAREZ, MNSA

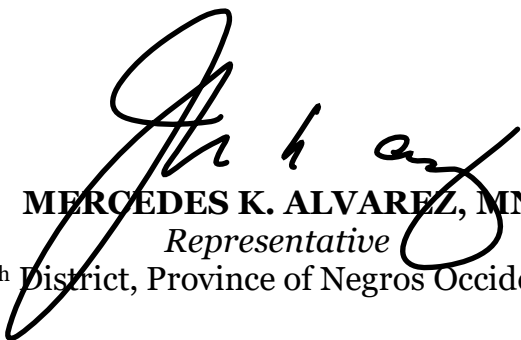

EXPLANATORY NOTE

Section 3 of Republic Act No. 9155, otherwise known as the Governance of Basic Education Act of 2001, emphasizes as one of its goals the establishment of schools and learning centers as facilities where children are able to learn a range of core competencies prescribed for elementary and high school education programs.

The results of the 2018 and 2022 Programme for International Student Assessment reveals the bottom ranking of the Philippines, viz, 78/78 and 77/81, respectively. Accordingly, out of 81 countries, the Philippines now ranks sixth-lowest in both mathematics and reading, and third-lowest in science. Thus, the dismal performance of our students highlights the rising demand for quality mathematics and science education, thereby necessitating the establishment of mathematics and science high schools in the country.

This bill seeks to establish the Negros Occidental Mathematics and Science High School in the Municipality of Hinoba-an, Province of Negros Occidental, with the goal of producing well-trained and highly skilled individuals fully equipped to promote the local growth of the economy of the Negros Island Region and position the Municipality of Hinoba-an as a hub for science and innovation.

In view of the foregoing, the immediate passage of this bill is earnestly sought.
