

Republic of the Philippines

TWENTIETH CONGRESS
First Regular Session

HOUSE BILL NO. 6215

Introduced by:

HON. CHRISTOPHERSON "COCO" M. YAP

EXPLANATORY NOTE

The 1987 Philippine Constitution guarantees citizens' access to quality education at all levels (Art. XIV, Sec. 1) and mandates the State to give priority to science and technology education, training, and services (Art. XIV, Sec. 10).

However, Republic Act No. 8496, as amended by Republic Act No. 9036, limits the establishment of Philippine Science High School (PSHS) campuses to only one per administrative region. This restriction, found particularly in Sections 2 and 5 of said laws, appears inconsistent with the Constitution's policy of promoting wider access to quality science education.

This bill seeks to strengthen and expand the PSHS System by authorizing the establishment of up to two (2) PSHS campuses—inclusive of existing ones—in each administrative region outside the National Capital Region, where the PSHS Main Campus is located. The creation of new campuses shall be subject to the criteria set by the PSHS System Board of Trustees. Providing provinces with the opportunity to host a PSHS campus will ensure that more Filipino youth gain access to free, high-quality public science education.

In the Nineteenth Congress, the House of Representatives approved a similar measure on Third Reading as House Bill No. 9726 on February 7, 2024, with two hundred fifteen (215) voting in favor, none against, and no abstentions.

In view of the foregoing, **ug sa ngalan sa SERBISYONG TINUORAY**, the undersigned respectfully requests the immediate passage of this measure.
