House Bill No. 6450

EXPLANATORY NOTE

Article II, Section 15 of the 1987 Philippine Constitution provides that the state shall protect and promote the right to health of the people and instill health consciousness among them.

Article XII, Section 11 of the same Constitution provides that the state shall adopt an integrated and comprehensive approach to health development which shall endeavor to make essential goods, health and other social services available to all the people at affordable cost. There shall be priority for the needs of the under-privileged, sick, elderly, disabled, women, and children. The state shall endeavor to provide free medical care to paupers.

This is the reason why we have the National Health Insurance Act and the Philippine Health Insurance Corporation. However, foreign nationals who are residents of this country should also be allowed to avail of the benefits of the National Health Insurance Act as long as they comply with the requirements including the payment of premiums.

These foreign nationals who have relocated to the Philippines and chosen our country as their second home came for commercial purposes, established their own businesses, or have settled as retirees or immigrants in the Philippines for personal or family reasons. During their stay, they have brought in considerable investments, patronized local businesses, contributed to the local economy, and in some cases have taken a role in nation building. They are as much a part of our public as our own citizens. They deserve consideration for their contributions and, to a certain extent, similar treatment.

Therefore, this bill seeks to grant foreign nationals residing in the Philippines coverage in the National Health Insurance Act.

In view of the foregoing, immediate passage of this bill is earnestly sought.
