HOUSE BILL NO. 6574

Introduced by Representative Carlos Andes Loria

EXPLANATORY NOTE

This bill seeks to convert the road commencing from the Comun-Inarado Junction and traversing through the barangays of Tagaytay, Bariw, Palanog and Mauraro in the Municipality of Camalig, Province of Albay into a national road and appropriate funds therefor

These roads serve as a vital link in the transportation network that supports the Bicol International Airport (BIA) and the surrounding communities, including the economic activities. As primary access routes to the airport, their condition and reliability directly affect the smooth and efficient movement of people, goods, and services. Converting these roads into national roads will help ensure their proper and sustained maintenance, aligned with the national standards.

The road section is also an integral component of the Guinobatan–Camalig–Daraga–Legazpi (GUICADALE) Economic Township Program, which began as a humanitarian initiative relocating families from lahar-prone and high-risk areas to safer, elevated zones. Over time, GUICADALE has evolved into a forward-looking regional development platform, envisioned to transform approximately 64,000 hectares across these municipalities into a vibrant and inclusive economic growth corridor.

Upgrading these roads is essential in realizing GUICADALE's full potential. Reliable and well-maintained roads will not only support economic activity but also enhance rural development, improve access to government services, and help spur investments in agriculture, tourism, and emerging industries.

Furthermore, this measure supports the broader objectives of Executive Order No. 70, s. of 2018, which champions a whole-of-nation, development-centered approach to addressing local insurgency. Improved infrastructure in the countryside, particularly in previously underserved areas, creates opportunities, promotes stability, and fosters inclusive growth, thereby strengthening overall peace and development efforts.

Given the strategic importance of these roads to the region's economic progress, community safety, and long-term development planning, the immediate passage of this bill is earnestly sought.
