HOUSE BILL NO. **6575**

Introduced by Representative Carlos Andes Loria

EXPLANATORY NOTE

This bill seeks to convert the road commencing from the Comun-Inarado Junction and traversing through the barangays of Bongabong, Caguiba and Pariaan, in the Municipality of Camalig, Province of Albay into a national road and appropriate funds therefor.

This road segment serves as a vital link in the network of arterial routes supporting the Bicol International Airport (BIA) and the surrounding communities. As a key access road, its efficient maintenance is essential in ensuring the smooth and uninterrupted movement of people, goods, agricultural products, and essential services within Camalig and its neighboring municipalities. With the proposed conversion, these roads will be under the jurisdiction of the Department of Public Works and Highways and is guaranteed to receive adequate funding and technical support for its maintenance and upgrade.

These roads are also an important component of the Guinobatan–Camalig–Daraga–Legazpi (GUICADALE) Economic Township Program. GUICADALE began as a humanitarian initiative designed to relocate families from lahar-prone and geologically hazardous zones to safer, higher ground. What started as a protective effort has since evolved into an ambitious 64,000-hectare regional development platform aimed at fostering inclusive growth, promoting strategic investments, and transforming underdeveloped areas into thriving economic centers.

The improvement and nationalization of these roads will significantly bolster GUICADALE's long-term development goals. Reliable and accessible road networks spur local enterprise, improve access to education and healthcare, enhance disaster response capabilities, and create opportunities for tourism and job generation across rural communities.

Furthermore, this initiative aligns with the goals of Executive Order No. 70, s. of 2018, which promotes a whole-of-nation approach to addressing local armed conflicts by prioritizing development, good governance, and inclusive public service delivery. Improving essential infrastructure in remote and underserved communities is vital to building peace, strengthening public trust, and fostering sustainable development.

Given the road's strategic importance to economic growth, public safety, and regional connectivity, the swift passage of this bill is earnestly sought.
