HOUSE BILL NO. 6576

Introduced by Representative Carlos Andes Loria

EXPLANATORY NOTE

This bill seeks to convert the road commencing from the Commun-Inarado Junction and traversing through the barangays of Comun, Cotmon, and Del Rosario in the Municipality of Camalig, and the barangays of Alobo, Burgos and Bascaran in the Municipality of Daraga, in the Province of Albay into a national road, and appropriate funds therefor.

These roads form an essential part of the arterial network supporting the Bicol International Airport (BIA) and the surrounding communities. The reliability and quality of this road network directly influence the mobility of residents, movement of goods, agricultural productivity, local trade, and tourism development. Converting these roads into national roads ensures that they receive consistent, well-funded maintenance aligned with national standards—an important step toward improving long-term connectivity and economic resilience across Albay.

This road network is also a vital component of the Guinobatan–Camalig–Daraga–Legazpi (GUICADALE) Economic Township Program. Originally established as a humanitarian effort to relocate families away from lahar-prone and hazard-prone areas to safer and higher ground, GUICADALE has since grown into an ambitious 64,000-hectare regional development strategy. Its goal is to transform these once underdeveloped areas into a thriving, integrated economic growth corridor.

Improving and nationalizing these roads is necessary to fulfill the vision of GUICADALE. A dependable transportation network is essential for encouraging investments, opening livelihood opportunities, improving access to public services, and supporting the seamless movement of people during emergencies and natural

disasters. Better roads strengthen the foundation for rural and urban development alike.

Moreover, this measure aligns with Executive Order No. 70, which advances a whole-of-nation, development-centered approach to addressing local insurgency by focusing on improved governance, inclusive development, and strengthened community partnerships. Enhanced infrastructure in rural communities is a key component of sustaining peace and ensuring that economic progress reaches far-flung barangays.

Given the strategic value of these roads to regional development, public safety, and long-term economic growth, the immediate passage of this bill is earnestly sought.
