HOUSE BILL NO. **6675**

Introduced by Representative **MARLYN L. PRIMICIAS-AGABAS**

EXPLANATORY NOTE

Barangays are the backbone of local governance in the Philippines, playing a critical role in addressing the everyday needs of our citizens. Despite their central role in providing essential services and in addressing local concerns, barangays often face limitations in terms of resources to address the needs of their residents effectively. These challenges, which include inadequate infrastructure, insufficient funding, and low compensation for barangay officials, hinder their ability to fulfill their duties and serve their communities optimally. This is why, a Magna Carta for Barangays must be established. This bills aims to uplift barangays by ensuring that the basic needs of Filipino citizens are met at the grassroots level.

Currently, barangay officials are not provided with adequate compensation to carry out their duties effectively. This is a disservice not only to the barangay officials but also to the people who depend on them. This bill, therefore, ensures that barangay officials are given appropriate salaries, much like their counterparts at the municipal or city levels. By securing better compensation, we ensure that barangay officials are more motivated and equipped to tackle the issues within their barangays.

Furthermore, basic services such as access to clean drinking water, reliable public transportation, adequate healthcare facilities, and education are often limited or non-existent in remote barangays. This bill, thus, seeks to ensure that every barangay has access to these essential services, thereby improving the overall quality of life for every resident.

The bill also prioritizes the fiscal autonomy of barangays, recognizing that they must have the financial independence to address their unique needs. By ensuring that barangays receive a fair share of national taxes, as well as funds from local revenues and natural resources, this bill provides the financial stability necessary for barangays to manage their affairs.

Another important aspect of this bill is its focus on promoting local employment and education. By mandating priority in hiring for residents in government construction or development projects, the bill fosters job opportunities and strengthens community participation in local projects. Similarly, by requiring barangays to sponsor scholarship

grants for deserving residents, it gives individuals the opportunity to pursue higher education and contribute meaningfully to their community's progress.

The passage of this bill is necessary in addressing the immediate needs of barangays and in ensuring that local governance in the Philippines can grow in a way that is inclusive and sustainable. By empowering barangays with greater autonomy and resources needed to deliver essential services, we are creating a foundation for more effective and responsive governance. This, in turn, will create stronger local communities, which will ultimately lead to a more united and prosperous nation.

Therefore, the immediate approval of this bill is earnestly sought.
