EXPLANATORY NOTE

This bill seeks to convert the Pamplona-Gainza-Naga Road in the Province of Camarines Sur, into a national road.

Roads are considered as the backbone of one's province's infrastructure as it connects people to goods and services, access to healthcare, social activities, and employment opportunities, and efficient and faster travel to one's workplace and school. In fact, roads is one of the major dictations of a developing city or municipality or province as it promotes their overall development due to their efficiencies on how they reduce transportation costs and travel time.

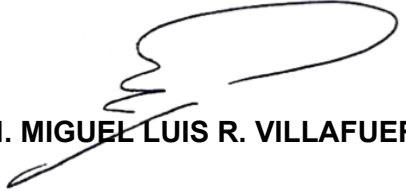

The Pamplona-Gainza-Naga Road is a linked road for three (3) barangays in the Municipality of Pamplona, six (6) barangays in the Municipality of Gainza, two (2) barangays in the Municipality of Camaligan and one (1) barangay in the City of Naga that stretches for a long Fifteen Kilometers and Twenty Three Meters (15.23km), which is an enormous contribution to the delivery of goods and services within the said municipalities. Furthermore, it has brought our constituents to their destinations to and from with the help of this road.

However, just like any other infrastructure, roads are prone to wear and tear that are in need of either maintenance or immediate repair. As much as local government units acknowledge their significance within their jurisdictions for efficient and effective flow of goods and services, and resources, their budgets are limited and need the assistance of the national government to both maintain and repair such roads.

Therefore, in order to ensure the Pamplona-Gainza-Naga Road's orderly function in the province of Camarines Sur, the conversion of the said road into a national road is essential.
