EXPLANATORY NOTE

This bill seeks to convert the Cambalidio-Tinalmud Pasacao Road in the Province of Camarines Sur, into a national road.

Roads are considered as the backbone of one's province's infrastructure as it connects people to goods and services, access to healthcare, social activities, and employment opportunities, and efficient and faster travel to one's workplace and school. In fact, roads is one of the major dictations of a developing city or municipality or province as it promotes their overall development due to their efficiencies on how they reduce transportation costs and travel time.

The Cambalidio-Tinalmud Pasacao Road is a linked road that stretches for Five Kilometers and Three Hundred Sixty-Two Meters (5.362km) connecting barangays Cambalidio and Tinalmud Viejo in the Municipality of Libmanan and Barangay Tinalmud in the Municipality of Pasacao, which is a significant route by its constituents to transport goods and services, as well as themselves for work, education, and other social activities related to their day to day living.

However, just like any other infrastructure, roads are prone to wear and tear that are in need of either maintenance or immediate repair. As much as local government units acknowledge their significance within their jurisdictions for efficient and effective flow of goods and services, and resources, their budgets are limited and need the assistance of the national government to both maintain and repair such roads.

Therefore, in order to ensure the Cambalidio-Tinalmud Pasacao Road's orderly function in the province of Camarines Sur, the conversion of the said road into a national road is essential.
