House Bill No. **8268**

INTRODUCED BY REP. PATRICK MICHAEL “PM” D. VARGAS

AN ACT
DECLARING THE MONTH OF OCTOBER OF EVERY YEAR AS THE
“NATIONAL DWARFISM AWARENESS MONTH” AND OCTOBER 25 AS THE
“NATIONAL DWARFISM AWARENESS DAY”

EXPLANATORY NOTE

The Philippines’ commitment to inclusivity and human dignity is enshrined in Article II, Section 11: “The State values the dignity of every human person and guarantees full respect for human rights.” This commitment is embedded in how our laws would uphold and protect the rights and welfare of Filipinos who are marginalized.

Among those who continue to face stigma and discrimination are persons of short stature or little people. A little person is one of the approximately 400 types of dwarfism¹. Dwarfism is a medical or genetic condition that usually results in an adult height of 4’10” or shorter, although in some cases, the average height of an adult with dwarfism is 4’0, but typical heights range from 2’8” to 4’8”².

Since dwarfism can be caused by so many different genetic or medical conditions, it is difficult to get an accurate number of individuals affected. The most recognizable and most common form of dwarfism in little people is achondroplasia, which accounts for 70% of dwarfism cases, and occurs in

approximately 1 in 26,000 to 1 in 40,000 births³. In 2017 alone, 1.7 million live births were recorded in the country.⁴ Following the world estimate for achondroplasia, approximately 42 to 65 live births in the country in 2017 may have been affected by dwarfism.

Despite the validity of their existence and their contributions to society, little people continue to face challenges in accessing equal opportunities for all, are stigmatized, and are discriminated against due to being different.

This bill seeks to declare the month of October of every year as the “National Dwarfism Awareness Month”, to instill public awareness of the human rights situation of the Filipino Little People. Likewise, October twenty-fifth of every year shall be declared the “National Dwarfism Awareness Day” for the purposes of promoting recognition and acceptance of persons with dwarfism, in line with the annual celebration of Dwarfism Awareness Month and Dwarfism Awareness Day by the Little People of America, one of the early organizations that provides support, resources, and information to individuals with dwarfism and their families.

In view of the foregoing, the immediate passage of this bill is earnestly sought.
