TWENTIETH CONGRESS
First Regular Session

House Bill No. **8484**

Introduced by **REPRESENTATIVE RICARDO S. CRUZ, JR.**

EXPLANATORY NOTE

The right of suffrage is a fundamental pillar of a democratic society. However, for certain sectors of society, particularly senior citizens and persons with disabilities (PWDs), physical limitations often make it difficult to exercise this right on election day. Similarly, lawyers and human resources for health are frequently required to render essential professional services during elections, limiting their ability to vote without disrupting public order, legal processes, and health services.

This measure seeks to make voting more accessible and convenient by allowing senior citizens, PWDs, lawyers, and human resources for health the option to vote earlier than the regular election day. By providing an early voting mechanism, the State ensures that these sectors can meaningfully participate in the electoral process without compromising their health, safety, or professional responsibilities.

The proposed measure promotes inclusive and participatory democracy by removing practical barriers to voting while safeguarding the continuous delivery of essential legal and health services during elections.

In view of the foregoing, the passage of this bill is earnestly sought.
