House Bill No. 8585

Introduced by: REP. RONALD V. SINGSON

EXPLANATORY NOTE

The Land Transportation Office (LTO) plays a crucial role in ensuring road safety, regulating motor vehicles, and delivering essential services to motorists and the general public. Among its frontline responsibilities are the issuance of driver's licenses and permits, registration of motor vehicles, and adjudication of traffic violation cases.

The LTO San Ildefonso District Office in Ilocos Sur has long been providing these vital services to a growing number of constituents. Over the years, the office has experienced a steady increase in the volume of transactions and responsibilities as it serves an expanding population and responds to increasingly complex transportation and regulatory demands. However, despite the significant growth in workload and service coverage, the office remains classified as a Class C district office, a classification that no longer reflects the scope and scale of its operations.

The current classification limits the office's ability to expand its staffing complement, upgrade facilities, and further enhance the efficiency of public service delivery. Reclassifying the LTO San Ildefonso District Office from Class C to Class A will enable the government to strengthen its operational capacity, improve infrastructure, and ensure that the office can adequately meet the needs of the riding public and motorists in the area.

Such an upgrade will significantly improve access to government services, reduce processing times, and provide better support to the communities that rely on the office daily for transportation-related services.

In view of the foregoing, the immediate passage of this measure is earnestly sought.
