

Republic of the Philippines
HOUSE OF REPRESENTATIVES

TWENTIETH CONGRESS
First Regular Session

House Bill No. 9226

Introduced by Representative Timothy Joseph Cayton

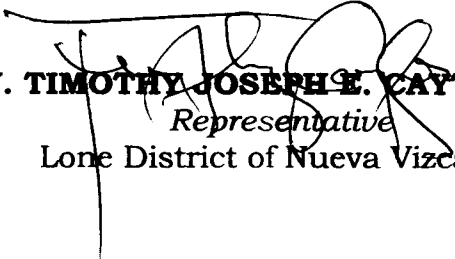

EXPLANATORY NOTE

The rapid pace of socio-economic and technological change has underscored the need for responsive, forward-looking legislation that promotes inclusive growth, safeguards public welfare, and strengthens institutional capacity. The proposed **DALI Bill** is introduced in this context to address existing gaps in policy and provide a comprehensive framework that is adaptive, efficient, and equitable.

At present, the absence of a clear and unified legal structure governing the areas covered by the DALI Bill has resulted in fragmented implementation, limited accountability, and missed opportunities for innovation and development. Stakeholders—including government agencies, private sector actors, and local communities—face uncertainties that hinder effective coordination and long-term planning.

The Bill likewise aims to humanize the bureaucracy by prioritizing accessibility (*direkta*) and speed (*agad*), by simplifying requirements, streamlining procedures and eliminating red tape, during times of crisis. It further mandates the Anti-Red Tape Authority to monitor compliance and ensure that the government's response is efficient, standardized and free from unnecessary administrative burdens.

The immediate approval of this bill is earnestly sought.
