House Bill No. 9307

INTRODUCED BY REPRESENTATIVE WALFREDO R. DIMAGUILA

The Land Transportation Office (LTO) plays a vital role in ensuring efficient land transportation regulation, motor vehicle registration, driver licensing, and enforcement of transportation laws in the country. As urban centers continue to expand and economic activities intensify, the demand for accessible and efficient public services from the LTO correspondingly increases.

The City of Cabuyao in the Province of Laguna has experienced rapid urbanization, industrial growth, and population expansion over the years. Being one of the major economic hubs in CALABARZON, Cabuyao hosts numerous industrial parks, commercial establishments, and residential communities, resulting in a significant increase in the number of registered motor vehicles and licensed drivers within its jurisdiction.

Despite the growing volume of transactions and clientele being served by the LTO Cabuyao District Office, its present classification as a Class “B” district office limits its operational capacity, personnel complement, and service efficiency. Consequently, residents, motorists, and business stakeholders experience congestion, longer processing times, and limited accessibility to essential LTO services.

Upgrading the LTO Cabuyao District Office from a Class “B” to a Class “A” district office will enable the government to enhance its operational capability, improve public service delivery, augment personnel and resources, and accommodate the increasing demands of the riding and motoring public in Cabuyao and nearby localities. This measure will likewise support the continued economic development of the area by providing more responsive and efficient transportation-related services.

In view of the foregoing, the immediate passage of this bill is earnestly sought.
