First Regular Session

Republic of the Philippines
HOUSE OF REPRESENTATIVES
Quezon City

HOUSE BILL NO. 9352

Introduced by Honorable Celso G. Regencia

EXPLANATORY NOTE

The State recognizes that an efficient and integrated road network is essential to urban mobility, economic activity, and the orderly expansion of growing cities. Circumferential roads play a critical role in distributing traffic, reducing congestion along primary corridors, and improving connectivity across urban and peri-urban areas.

The Iligan City Circumferential Road (C3) Extension, traversing Barangays Pugaan, Mandulog, Lanipao, and Digkilaan, serves as a vital continuation of the City's circumferential network. Extending from the Green Gold Gas Crossing in Barangay Pugaan to Runay Bridge in Barangay Digkilaan, the road strengthens linkages across multiple growth areas and supports access to both residential and production zones.

A feasibility study has already been conducted, affirming its viability and strategic importance. The road has likewise been validated for conversion into a national road, recognizing its significance in completing the circumferential road system of Iligan City. However, it remains under local jurisdiction, which constrains sustained development, maintenance, and integration into the broader national road network.

Converting the Iligan City Circumferential Road (C3) Extension into a national road will enable the Department of Public Works and Highways to undertake comprehensive improvement and long-term maintenance. This will ensure that the road meets national standards and fully functions as a critical component of the city's transport network.

In view of the foregoing, the immediate passage of this bill is earnestly sought.
