First Regular Session

House Bill No. 9595

Introduced by
Anna Victoria Veloso-Tuazon, 3rd District of Leyte

EXPLANATORY NOTE

This bill seeks to grant the Leyte V Electric Cooperative, Inc. (LEYECO V) a franchise to construct, install, establish, operate, own, manage, and maintain distribution systems for the conveyance of electric power to end-users in the City of Ormoc and the municipalities of Albuera, Kananga, Matag-Ob, Villaba, Palompon, Tabango, San Isidro, Calubian, Leyte, Merida, and Isabel, all in the Province of Leyte.

LEYECO V was incorporated with the National Electrification Administration on December 21, 1977, under the provisions of Republic Act No. 6038, as amended by Presidential Decree No. 269. On August 1, 1979, it assumed the operation of the Aboitiz-owned Ormoc Electric and Lights Company with less than 3,000 consumers then concentrated only in Ormoc City. From this modest beginning, LEYECO V has grown into a major electric cooperative now serving the power needs of one (1) city and eleven (11) municipalities in the 3rd and 4th Districts of Leyte.

At present, LEYECO V has energized all three hundred ninety-one (391) barangays within its coverage area and provides electricity to 157,725 households, establishments, schools, and other registered member-consumers. This accomplishment demonstrates the cooperative's vital role in

sustaining local development, enabling commerce, supporting education and public services, and improving the quality of life of communities in its franchise area.

Beyond its technical operations, LEYECO V has embraced modernization and consumer-oriented service delivery. It has adopted online payment systems, electronic payment centers, SMS advisories, consumer complaint mechanisms, Android meter reading with GPS, automated systems, website and social media platforms, and radio-based information dissemination. It is also ISO 9001:2015 certified, reflecting its continuing effort to institutionalize quality management and improve service standards for its member-consumer-owners.

Through its SMART Distribution Utility Roadmap, LEYECO V has begun deploying advanced technologies for a more efficient and resilient distribution system. Its SCADA system at the 20 MVA Alta Vista Substation is already operational, while initiatives for GIS-based asset management, Advanced Metering Infrastructure pilot deployment in Ormoc City, and fiber optics technology are being pursued to support smart grid development, faster communication, improved system monitoring, and better consumer transactions.

The bill further recognizes that electric cooperatives institutions established to advance countryside development, empower member-consumer-owners, and bring the benefits of electrification to communities that depend on reliable power for progress. By granting LEYECO V a legislative franchise, Congress will ensure the continuity of electric distribution service in its coverage area while preserving the State's regulatory authority to require efficiency, accountability, and responsiveness to consumers.

In view of the foregoing, the passage of this bill is earnestly sought.
