

Republic of the Philippines
HOUSE OF REPRESENTATIVES
Quezon City, Metro Manila

TWENTIETH CONGRESS
First Regular Session

House Bill No. 9794

**Introduced by Representatives JEFFREY SORIANO, JOCELYN P. TULFO,
and RALPH WENDEL P. TULFO**

EXPLANATORY NOTE

This bill seeks to further modernize the Philippine healthcare system by strengthening the country's health financing, delivery, and accountability systems. It amends Republic Act (RA) No. 11223, otherwise known as the "*Universal Health Care Act*".

Despite the enactment of RA 11223 in 2019, many Filipinos continue to face high out-of-pocket expenses, unequal access to health facilities, and a fragmented system of service delivery and financing. These issues were further highlighted during the COVID-19 pandemic, which exposed weaknesses in public health preparedness, and in the transparency and accountability of health fund utilization.

This bill introduces reforms that promote a more equitable and efficient Universal Health Care system. It establishes fairer premium contribution schemes and ensures continued access to health benefits for migrant workers, overseas Filipinos in distress, and dual citizens. It strengthens safeguards on Philippine Health Insurance Corporation (PhilHealth) fund use and allows local government units (LGUs) to establish and manage Special Health Funds. It further creates a Universal Health Care Coordinating Council to enhance policy coherence and intergovernmental coordination. The proposed measure also mandates independent audits of PhilHealth and imposes penalties for the grave misuse of health funds to reinforce accountability.

Through these measures, this bill seeks to make universal health care more responsive, sustainable, and inclusive, ensuring that its benefits are effectively felt by all Filipinos, especially the poor and vulnerable.

In view of the foregoing, immediate approval of this bill is earnestly sought.

HON. JEFFREY SORIANO
