Committee Referral : APPROPRIATIONS

Chairperson : REP. MIKAELA ANGELA B. SUANSING

OBJECTIVES

- To authorize the appropriation of funds for the operation of the national government (NG), including subsidy to the local government untis (LGUs) and government-owned and - controlled corporations (GOCCs) for Fiscal Year (FY) 2026. The total new appropriations for Fiscal Year 2026 amount to ₱4,652.8 billion, composed of ₱4,402.8 billion in Programmed New Appropriations and ₱250.0 billion in Unprogrammed Appropriations.

- To highlight the significance of the FY 2026 National Budget, amounting to ₱6.793 trillion, anchored on the theme: "Agenda for Prosperity: Nurturing a Future-Ready Generation to Achieve the Full Potential of the Nation." This

theme underscores the administration's policy thrust to foster inclusive growth, strengthen resilience, and direct public resources toward programs that build the foundations of a future-ready generation—ensuring that national development is sustainable, people-centered, and responsive to the needs of Filipinos.

KEY PROVISIONS

- Adopts a prudent resource mobilization and financing strategy, by improving tax effort and compliance, enhanced non-tax revenues from government-owned and controlled corporations, and a calibrated borrowing program that gives primacy to domestic financing while selectively tapping concessional external loans to fund critical infrastructure and development initiatives.

- Supports programs and projects that directly uplift the Filipino people, with focus on: (a) human capital development, encompassing education, health, and social protection; (b) food security and agricultural productivity, to ensure resilient and affordable food systems; (c) infrastructure modernization, particularly in digital transformation and logistics to strengthen connectivity and competitiveness; (d) climate adaptation and disaster risk reduction, to safeguard communities and critical assets; and (e) peace, order, and national security, as the foundation for sustained growth and social stability.

- Authorizes the release and obligation of funds until December 31, 2027, except for Personnel Services (PS) which shall be available for release, obligation, and disbursement until December 31, 2026. In exceptional circumstances, payment may be allowed within an extended payment period until March 31, 2027.

- Provides that the construction and completion of infrastructure projects, as well as the delivery and inspection of goods and services funded under Capital Outlays and MOOE, shall be made not later than December 31, 2027. Payments for accepted goods, services, and completed infrastructure projects may be made within two (2) years from the date of acceptance.

- Provides that subsidies released to Local Government Units (LGUs) and Government-Owned and Controlled Corporations (GOCCs) shall remain valid until fully expended. Funds transferred between national agencies, or to LGUs/GOCCs, shall not be considered disbursed by the source agency until such amounts are actually utilized to pay for completed construction, delivered goods, or services rendered, inspected and accepted within the prescribed validity period.

- Provides that after the expiration of the validity period, all unreleased appropriations, unobligated allotments, and obligated allotments for goods, services, or projects not delivered, rendered, completed, and accepted shall revert to the unappropriated surplus of the General Fund. Such funds shall not be available for expenditure except through subsequent legislative enactment.

- Adopts the following parameters and assumptions in the formulation of the national budget:

  a) A gross domestic product (GDP) growth rate of 6.0 to 7.0 in 2026. Inflation rate of 2.0 to 4.0; 364-day T-bill rates of 4.5 to 5.5; and foreign exchange rate of 56 to 58 peso to one US dollar;

  b) A fiscal program with the following major features, among others:

     1) Total revenues of PhP 4,983.4 billion in FY 2026, which translates to 16.2 percent of GDP and is higher by 10.2 percent from the FY 2025 revenue program of PhP 4,520.4 billion;

     2) Consolidated public sector deficit of PhP 949.8 billion or 3.1 percent of GDP;

     3) National government budget deficit of PhP 1,646.6 billion or 5.3 percent of GDP;

     4) Outstanding national government debt of PhP 19.057 trillion or a debt-to-GDP ratio of 61.8 percent by end-2026.

  c) A budget of PhP 6.793 trillion, which corresponds to 22 percent of GDP, and 7.4 percent higher or PhP 467 billion more than the FY 2025 budget of PhP 6.326 trillion.

  d) Programmed New Appropriations of PhP 4.403 trillion together with the PhP 2.390 trillion in Automatic Appropriations which is outside the purview of this General Appropriations Bill, will provide for the appropriation cover for the PhP 6.793 trillion budget.

ORGANIZATIONAL OUTCOME 1 : Ensure Safe and Reliable National Road System	**265,373,826,000**
Asset Preservation Program	**123,390,944,000**
The program aims to improve the quality of national roads to international standards and ensure resiliency to natural disasters. This program encompasses the preservation of the existing paved national roads through the following sub-programs: Preventive Maintenance; Rehabilitation/ Reconstruction/Upgrading of damaged paved national roads; Rehabilitation/Reconstruction of National Roads with slips, slope collapse, and landslide; construction, upgrading/rehabilitation of drainage along national roads.	
Preventive Maintenance	**55,940,559,000**
Preventive maintenance is a sub-program under the Asset Preservation Program that aims to preserve and prolong the lifespan of national roads. This program is typically carried out on roads that are in fair to poor condition, with the primary objective of preventing and delaying further deterioration to a state where extensive rehabilitation is necessary. Preventive maintenance aims to prevent and delay the deterioration of national roads to a bad condition where ultimately rehabilitation is required, which typically involves Asphalt Overlay, Asphalt Overlay with Correction, and Concrete Reblocking.Asphalt Overlay is done on roads in fair condition. It involves the application of an additional layer of asphalt, that covers imperfections in existing asphalt or concrete. It is commonly applied to pavement that hasminor damage like light cracking, mild deterioration, or slightly sunken areas. The process of overlaying asphalt commonly includes a leveling out of the old asphalt pavement, ensuring a smooth, even surface on which to add additional layers.Asphalt Overlay with Correction is done on roads in poor condition. It involves the repair of short intermittent damaged sections before applying asphalt overlay. For concrete roads, the most common type of corrective maintenance is a combination of concrete pavement restoration (CPR) in terms of the replacement of intermittent shattered slabs and asphalt overlay.Concrete reblocking is done on national roads in poor condition which involves selective reblocking or replacement of intermittent shattered slabs in bad condition. process aims to improve the pavement's load-bearing capacity, reduce the risk of potholes, and enhance the pavement's durability and longevity.

Rehabilitation/ Reconstruction/ Upgrading of Damaged Paved Roads	**18,364,393,000**
The Rehabilitation, Reconstruction, and Upgrading of Damaged Paved National Roads is the sub-program aimed at restoring the national roads to an optimal condition. This sub-program under Asset Preservation Program targets national roads that are in poor condition and are no longer cost-effective to maintain.Upgrading from asphalt to concrete is also a part of this sub-program. This involves replacing the asphalt surface with a concrete one, which provides enhanced durability, resistance to heavy loads, and reduced maintenance costs.

Network Development Program	**108,513,417,000**
The Network Development Program focuses specifically on the expansion and improvement of the national road network.It aims to expand the capacity of the national road network by constructing new roads that meet the functional classification criteria and improving the quality of existing national roads through various activities. Eligibility for later classification as a national road is determined by a feasibility study and the functional classification criteria set by DPWH. This is also achieved through a range of activities such as road widening, the construction of bypasses and diversion roads, the construction of missing links/new roads, the construction of flyovers, interchanges, underpasses, long-span bridges, off-carriageway improvement, and the paving of unpaved roads.The program includes several sub-programs aimed at achieving its objectives. These sub-programs include: Road Widening; Construction of By-Passes and Diversion Roads; Construction of Missing Links/ New Roads; Construction of Flyovers/ Interchanges/ Underpasses/ Long Span Bridges; Off-Carriageway Improvement; Paving of Unpaved Roads	
Road Widening	**44,588,804,000**
This involves widening the existing road pavement to accommodate more lanes to ease traffic congestion, improve traffic flow, and increase road capacity. Road widening is essential in high-traffic areas where there is a need to increase the capacity of the national road network.
